

Natural Advantage introduces Natural **Methyl Dihydrojasmonate (FEMA 3408, CAS 24851-98-7)**; best described as delicate floral, blooming jasmine flowers. In fragrance, it gives bright elusive Jasmine-like lifts and extended substantivity. Methyl Dihydrojasmonate adds sweet aromatic lift to tea while enhancing the sharpness of the tea flavor to give a clean refreshing finish. In citrus, this product can be used to elevate flavors missing components such as adding juiciness, sweet notes, and rounding out the flavor compounds.

Recommended use level: 0.01 - 1 ppm in finished products.

EU and US Natural, Kosher, Non-GMO, Vegetarian.
